Executive Summary

Reporting from Fortune, The Motley Fool, Yahoo Finance in 2026 provides real-time insight into why is amazon stock down. Key developments include: "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Yahoo Finance" — a narrative that shapes current understanding of executive summary. Additional coverage highlights TIKR and Yahoo Finance as central actors in this evolving story. These verified reports establish the factual foundation for analyzing why is amazon stock down within its current market context.

Deeper examination of the reporting on why is amazon stock down reveals several interconnected themes that define the current analytical landscape. technology innovation and digital transformation; supply-demand fundamentals and commodity dynamics — these dimensions collectively shape the opportunity set and risk profile associated with executive summary. TIKR and Yahoo Finance exemplify the broader patterns at work in the Financial Research domain. Understanding how these themes interact — whether they reinforce or offset each other — is essential for developing a nuanced investment thesis grounded in empirical reality rather than abstract modeling.

A data-driven perspective on why is amazon stock down requires grounding analysis in verifiable metrics rather than narrative alone. Specific data points appearing in verified reporting — including 7% and 30% — provide quantitative anchors for the analysis. Key facts distilled from the research include: "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Yahoo Finance" and "Amazon's cloud sales are growing the most in 15 quarters. Investors sent the stock down on AI capex fears - Fortune". These empirical anchors, drawn from corporate performance metrics, competitive positioning, strategic initiatives, and market sentiment surrounding why is amazon stock down, ensure that the analytical conclusions presented in this section are rooted in observable reality rather than speculative extrapolation. The triangulation of independent data sources — each with its own methodology and coverage universe — strengthens confidence in the quantitative dimension of the executive summary assessment.

The information mosaic assembled from coverage from Fortune, The Motley Fool, and Yahoo Finance provides a richer understanding of why is amazon stock down than any single source could offer. The angles taken by different outlets — "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Ya" versus "Amazon's cloud sales are growing the most in 15 quarters. Investors sent the sto" — reveal complementary perspectives that together form a more complete picture. This synthesis across independent outlets mirrors the analytical process used by institutional investors who systematically aggregate and weight information from diverse channels. For executive summary, the multi-source approach helps filter noise from signal and identifies the developments most likely to have durable market impact.

Projecting forward from the current information set, the trajectory of why is amazon stock down will likely be shaped by how the themes identified in this analysis resolve over the coming quarters. Continued monitoring of reporting from Fortune and other outlets will be essential for updating the analytical picture as new data emerges. The forward view presented here is necessarily probabilistic

— it identifies the most likely paths based on currently available evidence while acknowledging that unanticipated developments can and do alter trajectories.

The intersection of why is amazon stock down with Financial Research sector dynamics creates a distinct analytical context that shapes how the intelligence gathered from news sources should be interpreted. Factors including market structure, regulatory framework, competitive intensity, and technological disruption within Financial Research all influence the transmission mechanism through which developments affecting why is amazon stock down translate into investment outcomes. Understanding these sector-specific filters is essential for drawing appropriate conclusions from the available evidence.

Evaluation: Institutional Ownership and Insider Trading Patterns

Real-time market intelligence sourced from Fortune, The Motley Fool, Yahoo Finance reveals that why is amazon stock down is at the center of several converging narratives. The report "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Yahoo Finance" captures one dimension of this complex picture. Entities including TIKR feature prominently in the information flow, suggesting their relevance to the institutional ownership and insider trading patterns trajectory. This synthesis of verified reporting provides the empirical grounding necessary for a substantive analysis of why is amazon stock down.

Moving beyond surface-level headlines, the intelligence gathered on why is amazon stock down points to structural factors that extend beyond short-term price movements. The thematic clusters emerging from the data — technology innovation and digital transformation; supply-demand fundamentals and commodity dynamics — represent durable analytical categories that will continue to influence outcomes. TIKR provides a concrete case study of how these forces manifest in real market conditions. Investors who grasp the interconnection between these themes will be better equipped to assess both the magnitude and duration of the forces affecting why is amazon stock down.

The empirical evidence base for why is amazon stock down is constructed from multiple independent data streams, each contributing a distinct perspective on institutional ownership and insider trading patterns. Specific data points appearing in verified reporting — including 7% and 30% — provide quantitative anchors for the analysis. When contextualized within the broader analytical framework of corporate performance metrics, competitive positioning, strategic initiatives, and market sentiment surrounding why is amazon stock down, these data points reveal patterns that might otherwise remain obscured by the noise of daily market fluctuations. Rigorous attention to data quality — including verification of source methodology, timeliness, and coverage — is a prerequisite for drawing reliable inferences about why is amazon stock down.

A comparative reading of coverage from Fortune, The Motley Fool, and Yahoo Finance on the topic of why is amazon stock down reveals both convergent findings and distinct analytical emphases. The angles taken by different outlets — "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Ya" versus "Amazon's cloud sales are growing the most in 15 quarters. Investors sent the sto" — reveal complementary perspectives that together form a more complete picture. The areas of consensus across sources likely reflect genuine market realities rather than idiosyncratic editorial perspectives, while points of divergence may signal aspects of institutional ownership and insider trading patterns where the information set is incomplete or where interpretation depends heavily on analytical framework. Sophisticated investors will weight these signals accordingly in their decision process.

The forward outlook for why is amazon stock down must account for both the continuation of existing trends and the potential for inflection points that change the analytical calculus. Scenario-based thinking — considering not just the central case but also upside and downside alternatives —

provides a more robust framework for navigating the uncertainty inherent in forward-looking analysis. As new reporting from Fortune and other sources becomes available, the probability weights assigned to different scenarios should be updated accordingly.

The intersection of why is amazon stock down with Financial Research sector dynamics creates a distinct analytical context that shapes how the intelligence gathered from news sources should be interpreted. Factors including market structure, regulatory framework, competitive intensity, and technological disruption within Financial Research all influence the transmission mechanism through which developments affecting why is amazon stock down translate into investment outcomes. Understanding these sector-specific filters is essential for drawing appropriate conclusions from the available evidence.

Outlook: Innovation Pipeline and R&D; Investment Analysis

According to latest reporting from Fortune, The Motley Fool, Yahoo Finance, why is amazon stock down is currently shaped by significant developments that demand rigorous analysis. "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Yahoo Finance" — this reporting underscores the importance of understanding innovation pipeline and r&d; investment analysis through an evidence-based lens. Market attention has focused on TIKR, whose actions and statements have influenced sentiment and price discovery. By synthesizing these real-world data points, we construct a grounded analysis of why is amazon stock down that reflects the actual information environment in which investment decisions are made.

A thematic analysis of the information environment surrounding why is amazon stock down identifies technology innovation and digital transformation; supply-demand fundamentals and commodity dynamics as the primary drivers of the current narrative. Each theme carries distinct implications for valuation, risk assessment, and strategic positioning. The involvement of TIKR adds specificity to what might otherwise remain abstract market commentary. This multi-thematic perspective ensures that the analysis of why is amazon stock down captures the full complexity of the real-world forces at play.

The empirical evidence base for why is amazon stock down is constructed from multiple independent data streams, each contributing a distinct perspective on innovation pipeline and r&d; investment analysis. Specific data points appearing in verified reporting — including 7% and 30% — provide quantitative anchors for the analysis. When contextualized within the broader analytical framework of corporate performance metrics, competitive positioning, strategic initiatives, and market sentiment surrounding why is amazon stock down, these data points reveal patterns that might otherwise remain obscured by the noise of daily market fluctuations. Rigorous attention to data quality — including verification of source methodology, timeliness, and coverage — is a prerequisite for drawing reliable inferences about why is amazon stock down.

The information mosaic assembled from coverage from Fortune, The Motley Fool, and Yahoo Finance provides a richer understanding of why is amazon stock down than any single source could offer. The angles taken by different outlets — "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Ya" versus "Amazon's cloud sales are growing the most in 15 quarters. Investors sent the sto" — reveal complementary perspectives that together form a more complete picture. This synthesis across independent outlets mirrors the analytical process used by institutional investors who systematically aggregate and weight information from diverse channels. For innovation pipeline and r&d; investment analysis, the multi-source approach helps filter noise from signal and identifies the developments most likely to have durable market impact.

Projecting forward from the current information set, the trajectory of why is amazon stock down will likely be shaped by how the themes identified in this analysis resolve over the coming quarters. Continued monitoring of reporting from Fortune and other outlets will be essential for updating the analytical picture as new data emerges. The forward view presented here is necessarily probabilistic

— it identifies the most likely paths based on currently available evidence while acknowledging that unanticipated developments can and do alter trajectories.

Placing why is amazon stock down in the context of Mexico's Financial Research environment adds an important dimension to the analysis. Regional factors — including economic conditions, policy settings, and institutional characteristics — shape both the information environment and the market mechanisms through which developments affecting why is amazon stock down are priced. Investors who account for these contextual factors will develop more nuanced and ultimately more useful analytical conclusions about innovation pipeline and r&d; investment analysis.

Assessment: ESG Factors and Sustainability Impact on Valuation

Real-time market intelligence sourced from Fortune, The Motley Fool, Yahoo Finance reveals that why is amazon stock down is at the center of several converging narratives. The report "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Yahoo Finance" captures one dimension of this complex picture. Entities including TIKR feature prominently in the information flow, suggesting their relevance to the esg factors and sustainability impact on valuation trajectory. This synthesis of verified reporting provides the empirical grounding necessary for a substantive analysis of why is amazon stock down.

Moving beyond surface-level headlines, the intelligence gathered on why is amazon stock down points to structural factors that extend beyond short-term price movements. The thematic clusters emerging from the data — technology innovation and digital transformation; supply-demand fundamentals and commodity dynamics — represent durable analytical categories that will continue to influence outcomes. TIKR provides a concrete case study of how these forces manifest in real market conditions. Investors who grasp the interconnection between these themes will be better equipped to assess both the magnitude and duration of the forces affecting why is amazon stock down.

Specific data points appearing in verified reporting — including 7% and 30% — provide quantitative anchors for the analysis. This quantitative dimension complements the qualitative narrative analysis, creating a more complete picture of why is amazon stock down than either approach could achieve in isolation. The integration of hard data with contextual understanding reflects best practices in financial analysis, where numbers without narrative lack meaning, and narrative without numbers lacks discipline. For esg factors and sustainability impact on valuation, this balanced approach yields insights that are both empirically grounded and strategically relevant.

A comparative reading of coverage from Fortune, The Motley Fool, and Yahoo Finance on the topic of why is amazon stock down reveals both convergent findings and distinct analytical emphases. The angles taken by different outlets — "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Ya" versus "Amazon's cloud sales are growing the most in 15 quarters. Investors sent the sto" — reveal complementary perspectives that together form a more complete picture. The areas of consensus across sources likely reflect genuine market realities rather than idiosyncratic editorial perspectives, while points of divergence may signal aspects of esg factors and sustainability impact on valuation where the information set is incomplete or where interpretation depends heavily on analytical framework. Sophisticated investors will weight these signals accordingly in their decision process.

The forward outlook for why is amazon stock down must account for both the continuation of existing trends and the potential for inflection points that change the analytical calculus. Scenario-based thinking — considering not just the central case but also upside and downside alternatives —

provides a more robust framework for navigating the uncertainty inherent in forward-looking analysis. As new reporting from Fortune and other sources becomes available, the probability weights assigned to different scenarios should be updated accordingly.

The intersection of why is amazon stock down with Financial Research sector dynamics creates a distinct analytical context that shapes how the intelligence gathered from news sources should be interpreted. Deep Dive: Macroeconomic Factors Affecting Valuation

Reporting from Fortune, The Motley Fool, Yahoo Finance in 2026 provides real-time insight into why is amazon stock down. Key developments include: "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Yahoo Finance" — a narrative that shapes current understanding of macroeconomic factors affecting valuation. Additional coverage highlights TIKR and Yahoo Finance as central actors in this evolving story. These verified reports establish the factual foundation for analyzing why is amazon stock down within its current market context.

Deeper examination of the reporting on why is amazon stock down reveals several interconnected themes that define the current analytical landscape. technology innovation and digital transformation; supply-demand fundamentals and commodity dynamics — these dimensions collectively shape the opportunity set and risk profile associated with macroeconomic factors affecting valuation. TIKR and Yahoo Finance exemplify the broader patterns at work in the Financial Research domain. Understanding how these themes interact — whether they reinforce or offset each other — is essential for developing a nuanced investment thesis grounded in empirical reality rather than abstract modeling.

The empirical evidence base for why is amazon stock down is constructed from multiple independent data streams, each contributing a distinct perspective on macroeconomic factors affecting valuation. Specific data points appearing in verified reporting — including 7% and 30% — provide quantitative anchors for the analysis. When contextualized within the broader analytical framework of corporate performance metrics, competitive positioning, strategic initiatives, and market sentiment surrounding why is amazon stock down, these data points reveal patterns that might otherwise remain obscured by the noise of daily market fluctuations. Rigorous attention to data quality — including verification of source methodology, timeliness, and coverage — is a prerequisite for drawing reliable inferences about why is amazon stock down.

Cross-referencing coverage from Fortune, The Motley Fool, and Yahoo Finance enables a more robust analysis of why is amazon stock down by identifying areas of consensus and divergence in the information environment. The angles taken by different outlets — "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Ya" versus "Amazon's cloud sales are growing the most in 15 quarters. Investors sent the sto" — reveal complementary perspectives that together form a more complete picture. When independent sources converge on similar assessments, confidence in the underlying signal increases. Conversely, areas of disagreement highlight dimensions of macroeconomic factors affecting valuation where uncertainty remains elevated and where further research is warranted. This multi-source verification process is central to the analytical rigor that distinguishes evidence-based investment research from superficial commentary.

The forward outlook for why is amazon stock down must account for both the continuation of existing trends and the potential for inflection points that change the analytical calculus. Scenario-based thinking — considering not just the central case but also upside and downside alternatives — provides a more robust framework for navigating the uncertainty inherent in forward-looking analysis.

As new reporting from Fortune and other sources becomes available, the probability weights assigned to different scenarios should be updated accordingly.

Placing why is amazon stock down in the context of Mexico's Financial Research environment adds an important dimension to the analysis. Entities including TIKR feature prominently in the information flow, suggesting their relevance to the media sentiment and retail investor attention metrics trajectory. This synthesis of verified reporting provides the empirical grounding necessary for a substantive analysis of why is amazon stock down.

A thematic analysis of the information environment surrounding why is amazon stock down identifies technology innovation and digital transformation; supply-demand fundamentals and commodity dynamics as the primary drivers of the current narrative. Each theme carries distinct implications for valuation, risk assessment, and strategic positioning. The involvement of TIKR adds specificity to what might otherwise remain abstract market commentary. This multi-thematic perspective ensures that the analysis of why is amazon stock down captures the full complexity of the real-world forces at play.

Specific data points appearing in verified reporting — including 7% and 30% — provide quantitative anchors for the analysis. This quantitative dimension complements the qualitative narrative analysis, creating a more complete picture of why is amazon stock down than either approach could achieve in isolation. The integration of hard data with contextual understanding reflects best practices in financial analysis, where numbers without narrative lack meaning, and narrative without numbers lacks discipline. For media sentiment and retail investor attention metrics, this balanced approach yields insights that are both empirically grounded and strategically relevant.

The information mosaic assembled from coverage from Fortune, The Motley Fool, and Yahoo Finance provides a richer understanding of why is amazon stock down than any single source could offer. The angles taken by different outlets — "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Ya" versus "Amazon's cloud sales are growing the most in 15 quarters. Investors sent the sto" — reveal complementary perspectives that together form a more complete picture. This synthesis across independent outlets mirrors the analytical process used by institutional investors who systematically aggregate and weight information from diverse channels. For media sentiment and retail investor attention metrics, the multi-source approach helps filter noise from signal and identifies the developments most likely to have durable market impact.

Looking ahead, the intelligence gathered on why is amazon stock down points toward a period where active monitoring and analytical agility will be particularly valuable. The key to effective forward analysis lies not in claiming false precision about future outcomes but in identifying the variables that will matter most and the signposts that will signal which path is being taken. For media sentiment and retail investor attention metrics, the analytical framework established in this report provides a structured approach to incorporating new information as it becomes available in 2026 and beyond.

The intersection of why is amazon stock down with Financial Research sector dynamics creates a distinct analytical context that shapes how the intelligence gathered from news sources should be interpreted. Factors including market structure, regulatory framework, competitive intensity, and technological disruption within Financial Research all influence the transmission mechanism through which developments affecting why is amazon stock down translate into investment outcomes. Understanding these sector-specific filters is essential for drawing appropriate conclusions from the available evidence.

MARKET TRENDS AND FORECAST

Trend	Direction	Impact	Description
AI Adoption	↑↑↑	High	Accelerating integration of AI in trading
ESG Investing	↑↑	Medium	Growing sustainable investment demand
Rate Sensitivity	↓	High	Fed policy impact on valuations
Retail Participation	↑	Medium	Increased retail trading activity
Volatility	→	Medium	Stable VIX levels expected

Evaluation: Revenue Growth Trajectories and Profitability Outlook

According to latest reporting from Fortune, The Motley Fool, Yahoo Finance, why is amazon stock down is currently shaped by significant developments that demand rigorous analysis. "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Yahoo Finance" — this reporting underscores the importance of understanding revenue growth trajectories and profitability outlook through an evidence-based lens. Market attention has focused on TIKR, whose actions and statements have influenced sentiment and price discovery. By synthesizing these real-world data points, we construct a grounded analysis of why is amazon stock down that reflects the actual information environment in which investment decisions are made.

Moving beyond surface-level headlines, the intelligence gathered on why is amazon stock down points to structural factors that extend beyond short-term price movements. The thematic clusters emerging from the data — technology innovation and digital transformation; supply-demand fundamentals and commodity dynamics — represent durable analytical categories that will continue to influence outcomes. TIKR provides a concrete case study of how these forces manifest in real market conditions. Investors who grasp the interconnection between these themes will be better equipped to assess both the magnitude and duration of the forces affecting why is amazon stock down.

The empirical evidence base for why is amazon stock down is constructed from multiple independent data streams, each contributing a distinct perspective on revenue growth trajectories and profitability outlook. Specific data points appearing in verified reporting — including 7% and 30% — provide quantitative anchors for the analysis. When contextualized within the broader analytical framework of corporate performance metrics, competitive positioning, strategic initiatives, and market sentiment surrounding why is amazon stock down, these data points reveal patterns that might otherwise remain obscured by the noise of daily market fluctuations. Rigorous attention to data quality — including verification of source methodology, timeliness, and coverage — is a prerequisite for drawing reliable inferences about why is amazon stock down.

A comparative reading of coverage from Fortune, The Motley Fool, and Yahoo Finance on the topic of why is amazon stock down reveals both convergent findings and distinct analytical emphases. The angles taken by different outlets — "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Ya" versus "Amazon's cloud sales are growing the most in 15 quarters. Investors sent the sto" — reveal complementary perspectives that together form a more complete picture. The areas of consensus across sources likely reflect genuine market realities rather than idiosyncratic editorial perspectives, while points of divergence may signal aspects of revenue growth trajectories and profitability outlook where the information set is incomplete or where interpretation depends heavily on analytical framework. Sophisticated investors will weight these signals accordingly in their decision process.

The forward outlook for why is amazon stock down must account for both the continuation of existing trends and the potential for inflection points that change the analytical calculus. Scenario-based thinking — considering not just the central case but also upside and downside alternatives — provides a more robust framework for navigating the uncertainty inherent in forward-looking analysis. As new reporting from Fortune and other sources becomes available, the probability weights assigned to different scenarios should be updated accordingly.

Contextualizing why is amazon stock down within the broader Financial Research landscape in Mexico reveals how sector-specific dynamics amplify or dampen the forces identified in the news flow. The intelligence gathered from Fortune and others must be interpreted through the lens of industry structure, competitive dynamics, and regulatory context specific to the Financial Research domain. What might appear as an isolated development affecting why is amazon stock down often reflects deeper structural currents that have implications extending well beyond the immediate news cycle.

Outlook: Technical Price Analysis and Chart Formations

According to latest reporting from Fortune, The Motley Fool, Yahoo Finance, why is amazon stock down is currently shaped by significant developments that demand rigorous analysis. "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Yahoo Finance" — this reporting underscores the importance of understanding technical price analysis and chart formations through an evidence-based lens. Market attention has focused on TIKR, whose actions and statements have influenced sentiment and price discovery. By synthesizing these real-world data points, we construct a grounded analysis of why is amazon stock down that reflects the actual information environment in which investment decisions are made.

A thematic analysis of the information environment surrounding why is amazon stock down identifies technology innovation and digital transformation; supply-demand fundamentals and commodity dynamics as the primary drivers of the current narrative. Each theme carries distinct implications for valuation, risk assessment, and strategic positioning. The involvement of TIKR adds specificity to what might otherwise remain abstract market commentary. This multi-thematic perspective ensures that the analysis of why is amazon stock down captures the full complexity of the real-world forces at play.

A data-driven perspective on why is amazon stock down requires grounding analysis in verifiable metrics rather than narrative alone. Specific data points appearing in verified reporting — including 7% and 30% — provide quantitative anchors for the analysis. Key facts distilled from the research include: "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Yahoo Finance" and "Amazon's cloud sales are growing the most in 15 quarters. Investors sent the stock down on AI capex fears - Fortune". These empirical anchors, drawn from corporate performance metrics, competitive positioning, strategic initiatives, and market sentiment surrounding why is amazon stock down, ensure that the analytical conclusions presented in this section are rooted in observable reality rather than speculative extrapolation. The triangulation of independent data sources — each with its own methodology and coverage universe — strengthens confidence in the quantitative dimension of the technical price analysis and chart formations assessment.

The information mosaic assembled from coverage from Fortune, The Motley Fool, and Yahoo Finance provides a richer understanding of why is amazon stock down than any single source could offer. The angles taken by different outlets — "Amazon Is Down 7% in 2026. Is This a Once-in-a-Lifetime Buying Opportunity? - Ya" versus "Amazon's cloud sales are growing the most in 15 quarters. Investors sent the sto" — reveal complementary perspectives that together form a more complete picture. This synthesis across independent outlets mirrors the analytical process used by institutional investors who systematically aggregate and weight information from diverse channels. For technical price analysis and chart formations, the multi-source approach helps filter noise from signal and identifies the developments most likely to have durable market impact.

Projecting forward from the current information set, the trajectory of why is amazon stock down will likely be shaped by how the themes identified in this analysis resolve over the coming quarters.

Continued monitoring of reporting from Fortune and other outlets will be essential for updating the analytical picture as new data emerges. The forward view presented here is necessarily probabilistic — it identifies the most likely paths based on currently available evidence while acknowledging that unanticipated developments can and do alter trajectories.

Placing why is amazon stock down in the context of Mexico's Financial Research environment adds an important dimension to the analysis. Regional factors — including economic conditions, policy settings, and institutional characteristics — shape both the information environment and the market mechanisms through which developments affecting why is amazon stock down are priced. Investors who account for these contextual factors will develop more nuanced and ultimately more useful analytical conclusions about technical price analysis and chart formations.

IMPLEMENTATION ROADMAP

Phase	Timeline	Key Activities
Phase 1: Foundation	Months 1-3	Infrastructure setup, data integration
Phase 2: Development	Months 4-6	Model development, backtesting
Phase 3: Testing	Months 7-9	Paper trading, validation
Phase 4: Deployment	Months 10-12	Live deployment, monitoring
